Many students want to enhance an experience overseas by combining a study abroad with an international internship. When planning to do an internship abroad during the academic year, students must follow specific study abroad policies. Please be aware that several of Skidmore College's Approved Abroad Programs offer internship opportunities. Students interested in enriching a study abroad experience with an internship experience can access the specific guidelines required by visiting the Office of International Programs in Starbuck Center or by checking out the OIP website at www.skidmore.edu/internationalprograms. Since each country is different, it is important for students to learn about the specific guidelines and requirements for the country in which they plan to study.

The process for finding an internship abroad can be difficult and challenging but can be accomplished with research and planning. Please contact a representative from OIP or a career counselor in Career Services to assist in the process.

Skidmore Approved Programs offering Internship Opportunities are listed below:

[Skidmore in Alcalá](http://www.skidmore.edu/internationalprograms/alcala/index.htm) (<http://www.skidmore.edu/internationalprograms/alcala/index.htm>)
