SUMMER ACADEMIC INSTITUTE

July 5 to August 7, 2015

A summer program is mandated by the Department of Education for all HEO/AOP programs, as these summer courses pave the way for greater intellectual and cultural confidence and success as students enter their first full semester of college in the fall.

Skidmore’s Summer Academic Institute (SAI) is designed to prepare pre-freshmen for college life, initiate the process of building academic skills, and orient them to the support services available through HEO/AOP and Skidmore.
