

SEE Beyond Program

Information for Philosophy Majors

SEE-Beyond Awards invite students to explore new techniques, technologies, or modes of inquiry or expression; to apply their academic-year learning to real-world challenges; and to clarify the interrelationship between their educational and post-baccalaureate goals.

Listed below are links to programs and databases that provide the philosophy major with an idea of opportunities that may be pursued over the summer and which enhance, expand, and extend one's educational experience in the major. The list is far from exhaustive. Prospective applicants are encouraged to think creatively about opportunities in their communities that might allow them to critically engage with philosophical problems in and through their activities or that challenges them to use philosophical skills such as critical thinking, synthesis of complex bodies of information, analysis of arguments, etc. In this spirit, experiences in many of the sciences, in public policy, community organizing, the arts and humanities would be open to philosophers who can find creative ways to link these activities to their philosophical education.

Please see the SEE beyond website for information about dates and deadlines. See the Department Chair at the earliest opportunity if you are considering applying for this program.

General Opportunities

[Rutgers Summer Institute for Diversity in Philosophy](#)

[Colorado Summer Seminar in Philosophy](#)

[Philosophy in an Inclusive Key Summer Institute \(PIKSI\)](#)

[University of Minnesota Philosophy Camp](#)
