EC 300-level _____	<input type="checkbox"/>
EC 300-level _____	<input type="checkbox"/>
Senior Seminar	
EC 375—Senior Seminar	<input type="checkbox"/>

Additional Notes:

Students who entered Skidmore in Fall 2019 or beyond: Current Skidmore students studying abroad or at other institutions in the U.S. may transfer a maximum of one economics course per term of study and no more than two courses in total. At a minimum, for majoring in economics, students must have taken at least six economics courses at Skidmore, including two of the required 200-level courses (EC 235 - Macroeconomic Theory, EC 236 - Microeconomic Theory), EC 237 - Statistical Methods, two electives, and EC 375 - Senior Seminar in Economics.

Transfer students should work with the registrar's office regarding potential credit for economics courses taken prior to matriculating at Skidmore.

All electives must be 3- or 4-credit courses.

EC 399A-D may not count as one of the electives.

Students may not count economics classes taken S/U above the 100 level towards the major.

Calculus II and III, as well as Linear Algebra (offered by the Department of Mathematics), are strongly recommended for students planning to go to graduate school in economics or business.
