Looking to create your Skidmore user account? Just follow the directions below!

Welcome to the Skidmore Class of 2017!

One of your rights and responsibilities as a new student is the creation of a user account which will give you access to your Skidmore email along with other online resources. Starting now, you need an account to access restricted web forms, to record your housing preferences, to rank your choices for a first year seminar, and to register for your fall classes.

In order to begin the process, visit the Account Creation web page at [http://www.skidmore.edu/newaccount](http://www.skidmore.edu/newaccount). After reviewing the secure password rules, you will be ready to proceed with account creation. You will need to provide two pieces of information: your date of birth and your assigned Skidmore ID Number, which is printed below. You will create your account by supplying a password and a question-answer pair to be used for forgotten password requests. The confirmation screen for a successful registration will display your username. Your Skidmore email address will be your username followed by @skidmore.edu. It is important to record this username and password in a secure place and begin using your Skidmore email for all institutional correspondence. You will also need to use this account over the summer for registration and other tasks. For more information on computing at Skidmore, including how to access your email, please reference [http://cms.skidmore.edu/it/email/index.cfm](http://cms.skidmore.edu/it/email/index.cfm).

Here is the information you will need to create your account:

<table>
<thead>
<tr>
<th>Your Skidmore ID Number and Your Date of Birth</th>
</tr>
</thead>
<tbody>
<tr>
<td>(on your Admission Letter)</td>
</tr>
</tbody>
</table>

As a security feature, the registration application locks an account for 3 hours after 10 unsuccessful registration attempts. If this happens to you, you should wait for 3 hours and try again. If you continue to encounter problems, please call 518-580-5900 between 8:30-4:30 EST for help with the process, or send an email to helpdesk@skidmore.edu.

Again, welcome to Skidmore College!

Sincerely,

William J. Duffy
Interim Chief Technology Officer
