Gender-neutral restrooms currently on campus:

**Case Center**
- On the first floor: walk into the post office and past the window on your right. When you can no longer go forward, turn right and walk down the hallway. Continue just past the service elevator on your left and there will be two single-person wheelchair-accessible restrooms on your right. [Note: these restrooms have lights operated by motion detector! If the lights are off, just swing the door open really wide and they will turn on.]

**Dana Science Center**
- If entering from Dana atrium (hint: lots of windows and plants) go up the stairwell immediately ahead and to your right.
- On the second floor: Turn left down the first hallway directly off of the stairwell. Walk almost to the end of the hallway. On the right in an alcove are two single-person ADA-accessible restrooms. One is labeled "men" and one is labeled "women," but this is irrelevant since they are single-person restrooms. The signs should be changed.
- On the third floor: Turn left down the first hallway off the stairwell. Walk almost to the end of the hallway. On the right in an alcove is one single-person ADA-accessible restroom.

**Filene Music Building**
- There is a single-person, non-ADA-accessible restroom on the first floor near the stairwell.

**Murray-Aikins Dining Hall**
- There is a single-person, ADA-accessible restroom on the right when you enter the actual dining hall.
- There are two single-person, ADA-accessible restrooms on the second floor of the dining hall on the south end.

**Wiecking Hall (formerly Skidmore Hall)**
- This is a residence hall that also houses the Gender Neutral Housing wing. On the third floor, there are two gender-neutral bathrooms in this section with single-stalled toilets and showers.
- On the third floor, just down the hall, there is also one separate, single stall bathroom (ADA accessible) at the end of the hall.
