1. Minutes Approved
2. Announcements - Need to approve the ACOP Termination discussion and LFYE Review alternative to IES decision at the Feb 15th meeting, for Admissions. We will need to discuss whether it is a Major change and needs to go before Faculty or Minor one and can be approved by CEPP. If approved, FYE components classes would be the same. Then new classes would have to go to the Curriculum Committee for approval.
3. Debrief Discussion with Registrar Super Dave DeConno- How to memorialize/institutionalize the discussion about why we can't start earlier than Labor Day and have certain number of days in fall calendar. It was decided that creating a FAQ about scheduling- most important question that faculty ask- would be helpful
4. Remote Thanksgiving Mandate- There was a discussion about the result of the survey of Chairs and Program Directors about holding classes remotely on the Monday and Tuesday of Thanksgiving week. We then discussed whether to bring a motion to the faculty floor for a vote. It was decided that the lack of enthusiasm in the survey results combined with the lack of information of the implication for the board and lodging fees as well as the impact on international student and on Residential Life were enough not to bring it to the faculty floor.
