(Faculty Signature)

Senior Thesis Exhibition Spaces in the Tang range from 8 to 12 feet of wall space. Many spaces are 8 foot in width and 8 foot in wall height. **If you request more than eight feet in your proposal,** you must also submit a second plan that will fit within an 8-foot area.

## PROPOSAL:

Please attach a detailed proposal for your exhibition that must include:

- A scale diagram of how you plan to use your exhibition space. If 2-dimensional wall work, a front view is sufficient. If 3-dimensional work and pedestals, an additional side view is necessary.
- A brief written description of your exhibition as you envision it now. (Exact details about each artwork are recorded separately.)
- Be clear regarding special requests and the inclusion of particular pieces of equipment: electricity, pedestals, computers/monitors, and other site-specific needs.
- Please attach hard copy images of the work you will exhibit – finished or in progress - (color images are helpful aids when assigning spaces; however, if your work is black and white, black and white images are sufficient). All attachments should be 8.5 x 11.
- Provide any other useful information regarding the presentation of your work that will assist the staff in organizing and allocating exhibition space.

LIST OF ARTWORKS (List all works you plan to exhibit.)

NAME (Print): \_\_\_\_\_
