

FALL '21  
COURSES

# BIOLOGY

- BI-107 Molecular & Cellular Foundations of Life**
- BI-108 Organismal Biology**
- BI-241 Ecology**
- BI-245 Principles of Genetics**
- BI-246 General Microbiology**
- BI-252 Topics Course: Bioinformatics w/lab**
- BI-306 Mammalian Physiology**
- BI-338 Plant Biotechnology**
- BI-339 Plant-Animal Interaction**
- BI-351 Topics Course: Environmental Microbiology**
- BI-352 Topics Course: Environmental Microbiology w/Lab**
- BI-373 Scientific Communications in Life Science**
- BI-374 Senior Seminar Biology**

**Would you like to do Research in the Fall?**

Visit the Biology website for faculty research descriptions. Contact the faculty to discuss a possible research project and if approved, they will provide a registration override that will allow you to register for the course.
