Five Year Out Follow Up Data for the Class of 2007

INTRODUCTION

This report is a profile of the Class of 2007, five years after graduating from Skidmore College, summarizing their career and graduate school pursuits. Due to the amount of time removed from Skidmore, the methods utilized when collecting data ranged. Email questionnaires were distributed from mid-May through mid-June 2012. Records updated within the past 12 months in Advance (alumni database) were used to supplement responses to the email questionnaires. Because of the small cohort size at Skidmore, this report is to remain internal to protect the privacy of respondents.

Data was ultimately collected from 67% of the Class of 2007, down from 76% response rate when compiling the Class of 2007 year-out survey in 2008. 61% of respondents were female, and 39% of respondents were male.

EMPLOYMENT

The top two areas of pursuit for the Class of 2007, five years out from Skidmore, were Business (30%), followed by Education (15%). Health/Science (14%) was the third most popular category of employment, followed by Communications (12%), Arts (7%), Human Services/Social Work (7%), and Government/Law (6%). Self-employment was reported by 9% of respondents.

The employment distribution for the Class of 2007 has shifted since the one-year out follow up report. Communications experienced the greatest increase, from 5% to 12%, followed by Health/Science (9% to 14%), Human Services/Social Work (5% to 7%), and Government/Law (5% to 6%). Business saw the greatest decrease, from 42% to 30%, followed by Education (23% to 15%) and Arts (11% to 7%). Self-employment was not tracked in the one-year report in 2008.

Within Business, the most common area was Sales/Retail/Marketing at 38%. Banking/Finance was the next most popular category with 25% and the third most popular category was Other at 9%. Real Estate reported fourth highest (8%), followed by Consulting (7%), Hospitality/Sports (6%), Computer (5%), Insurance (1%) and Manufacturing (1%).

The Business distribution also witnessed shifts since the one-year follow up report. Sales/Retail/Marketing experienced a 7% increase, rising from 31% to 38%. Banking/Finance, Real Estate, and Other each rose 6% (19% to 25%, 2% to 8%, and 3% to 9% respectively). Hospitality/Sports experienced the greatest decrease (26% to 6%). Computer and Consulting both decreased 2% (7% to 5% and 9% to 7% respectively). Manufacturing decreased by 1% (2% to 1%), and Insurance remained the same at 1%.

Skidmore graduates were hired by a broad variety of employers ranging from larger prestigious organizations like American Ballet Theatre, Ann Taylor LOFT, Bank of America, Bausch & Lomb, Bloomberg, Booz & Company, Bumble & Bumble, Burson-Marsteller, Calvin Klein, Conde Nast, Credit Suisse, Dana Farber Cancer Institute, DC Comics, Deloitte Touche Tohmatsu Limited (DTTL), Estee Lauder, Grey NYC, Groupon, Hearst, JP Morgan, KIVA, Massachusetts General Hospital, MLB Networks, New York Presbyterian Hospital, PepsiCo, and UBS Investment Bank to smaller, local employers. See Appendix E for a complete list of employers and titles of graduates of the Class of 2007.

GRADUATE STUDY

46% of those responding to the survey are either currently pursuing graduate study or have completed graduate study. This number is a dramatic increase from the 19% pursuing graduate study reported in the year-out follow up data. Of the 46% responding, 20% have pursued or are pursuing Ph.D. or professional programs, and 5% are either currently completing or have completed two post-secondary degrees.

The Class of 2007 went on to study at many of the nation's leading institutions including American University, Boston University, Columbia University, Georgetown University, New York University, Pace University, Tulane University, University of Washington, and Washington University in St. Louis. See Appendix F for a complete list of graduate schools.

The most popular programs were (in order) Education, Law, Social Work, Business Administration, and Art. See Appendix G for a complete breakdown of graduate school pursuit by discipline.

GEOGRAPHIC DISTRIBUTION

Graduates of the Class of 2007 are employed or are completing/have completed graduate study in 31 different states and 8 foreign countries. New York was by far the most popular state with 39%. 19% reported Massachusetts and 6% in California. The District of Columbia reported 5%, followed by Pennsylvania and Illinois, both reporting 4%.

China was the most popular location for those living abroad with 3 alumni, followed by the United Kingdom with 2. Canada, France, India, Ireland, Italy, and Tanzania each reported 1.

GENDER DIFFERENCES

There were some significant differences between the responses of females and males to the survey. Men were more likely to be working in Business (37% vs. 24%), Communications (14% vs. 11%) and Government/Law (8% vs. 4%). Women were more likely to be working in Education (18% vs. 11%), Arts (8% vs. 5%), Self-Employment (10% vs. 8%), and Human Services/Social Work (10% vs. 3%). Health/Science was even, with both genders comprising 14% of the group.

Women were more likely to attend to graduate school, with 52% either currently attending or have attended versus the 35% reported by men. However, men were more likely to receive more than one post-secondary degree with 3% of males surveyed versus 2% of females surveyed.

Prepared by Megan Jackson, June 2012.

**CLASS OF 2007 – FIVE YEARS OUT
SUMMARY OF STATISTICS
APPENDIX A**

339 respondents are currently employed. Below is the distribution of fields:

Field	# of Responses	%
ARTS	24	7%
BUSINESS	101	30%
COMMUNICATIONS	40	12%
EDUCATION	53	15%
GOVERNMENT/LAW	19	6%
HEALTH/SCIENCE	47	14%
HUMAN SERVICES/SOCIAL WORK	24	7%
SELF-EMPLOYED	31	9%

**CLASS OF 2007 – FIVE YEARS OUT
