Five Year Out Follow Up Data for the Class of 2008

INTRODUCTION

This report is a profile of the Class of 2008, five years after graduating from Skidmore College, summarizing their career and graduate school pursuits. Due to the amount of time removed from Skidmore, the methods utilized when collecting data varied. Email questionnaires were distributed from mid-May through mid-June 2013. Records updated within the past 12 months in Advance (alumni database) were used to supplement responses to the email questionnaires. Because of the small cohort size at Skidmore, this report is to remain internal to protect the privacy of respondents.

Data was ultimately collected from 66% of the Class of 2008, down from 71% response rate when compiling the Class of 2007 year-out survey in 2008. 59% of respondents were female, and 41% of respondents were male.

EMPLOYMENT

The top two areas of pursuit for the Class of 2008, five years out from Skidmore, were Business (27%), followed by Education (13%). Health/Science (11%) was the third most popular category of employment, followed by Communications and Arts (10% each), Human Services/Social Work (9%), and Government/Law (8%). Self-employment was reported by 12% of respondents.

The employment distribution for the Class of 2008 shifted since the one-year out follow up report. Human Services/Social Work experienced the greatest increase, from 7% to 9%, followed by Business, Government/Law and Health Science, each posting a 1% increase. Education saw the greatest decrease, from 25% to 13%, followed by Arts (13% to 10%) and Communication (12% to 10%). Self-employment was not tracked in the one-year report in 2009.

Within Business, the most common area was Sales/Retail/Marketing at 28%. Banking/Finance was the next most popular category with 23% and the third most popular category was Manufacturing at 13%. Computer reported fourth highest (12%), followed by Hospitality/Sports (11%), Other (7%), Real Estate (4%), Consulting (2%) and Insurance (0%).

The Business distribution also witnessed shifts since the one-year follow up report. Computer experienced a 12% increase, rising from 2% to 12%. Banking/Finance and Manufacturing both rose 8% (15% to 23% and 5% to 11%, respectively). Other increased 5% (2% to 7%) and Real Estate increased 3% (1% to 4%). Hospitality/Sports experienced the greatest decrease (30% to 11%). Sales/Retail/Marketing decreased 7% (35% to 28%), Insurance decreased 5% (5% to 0%), and Consulting decreased 3% (5% to 2%).

Skidmore graduates were hired by a broad variety of employers ranging from larger prestigious organizations like Aetna, AOL & The Huffington Post Media Group, Boston Beer Company, Conde Nast, Digitas, Ernst & Young, Fords Theater, Macy's Inc., Marvel Animation, Mount Sinai Medical Center, NPR, Rolls-Royce PLC, Royal Bank of Canada Capital Markets, U.S. Department of State, and US Navy, to smaller, local employers. See Appendix E for a complete list of employers and titles of graduates of the Class of 2008.

GRADUATE STUDY

49% of those responding to the survey are either currently pursuing graduate study or have completed graduate study. This number is a dramatic increase from the 19% pursuing graduate study reported in the year-out follow up data. Of the 49% responding, 20% have pursued or are pursuing Ph.D. or professional programs.

The Class of 2008 went on to study at many of the nation's leading institutions including American University, Boston University, Brown University, Columbia University, Georgetown University, Harvard University, London School of Economics and Political Science, New York University, and Yale University.

The most popular programs were (in order) Social Work, Education, Business, Psychology, Fine Arts, and Creative Writing. See Appendix G for a complete breakdown of graduate school pursuit by discipline.

GEOGRAPHIC DISTRIBUTION

Graduates of the Class of 2008 are employed or are completing/have completed graduate study in 29 different states and 12 foreign countries. New York was by far the most popular state with 43%. 21% reported Massachusetts and 10% in California.

The following countries reported one alumni resident working or completing graduate study: Antigua and Barbuda, Brazil, Bulgaria, Canada, Guatemala, Hong Kong, Iraq, Israel, New Zealand, Singapore, Swaziland, and Switzerland

GENDER DIFFERENCES

There were some significant differences between the responses of females and males to the survey. Men were more likely to be working in Business (36% vs. 21%), Government/Law (12% vs. 5%) and Self-Employment (15% vs. 10%). Women were more likely to be working in the Arts (10% vs. 9%), Communications (11% vs. 9%), Education (17% vs. 7%), Health/Science (13% vs. 9%), and Human Services/Social Work (13% vs. 3%).

Women were more likely to attend to graduate school, with 52% either currently attending or have attended versus the 45% reported by men.

Prepared by Megan Jackson, June 2013.

**CLASS OF 2008 – FIVE YEARS OUT
