Five Year Out Follow Up Data for the Class of 2009

INTRODUCTION

This report is a profile of the Class of 2009, five years after graduating from Skidmore College, summarizing their career and graduate school pursuits. Due to the amount of time removed from Skidmore, the methods utilized when collecting data varied. Email questionnaires were distributed from mid-May through mid-April 2014. Records updated within the past 6 months in Advance (alumni database) were used to supplement responses to the email questionnaires. Because of the small cohort size at Skidmore, this report is to remain internal to protect the privacy of respondents.

Data was ultimately collected from 65% of the Class of 2009, down from 80% response rate when compiling the Class of 2009 year-out survey in 2010. 63% of respondents were female, and 37% of respondents were male.

EMPLOYMENT

The top two areas of pursuit for the Class of 2009, five years out from Skidmore, were Business (32%), followed by Education (13%). Health/Science and Communications were the third most popular categories of employment at 12% each, followed by Government/Law (9%), Arts (8%), and Human Services/Social Work (7%). Self-employment was reported by 7% of respondents.

The employment distribution for the Class of 2009 shifted since the one-year out follow up report. Business experienced the greatest increase, from 21% to 32%, followed by Communication (5% to 12%), Government/Law (4% to 9%), Health/Science (4% to 12%), and Human Services/Social Work (5% to 7%). Education saw the greatest decrease from 18% to 13%, followed by Arts (9% to 8%). Self-employment was not tracked in the one-year report in 2009, but accounted for 7% of respondents in 2014.

Within Business, the most common area was Banking/Finance at 26%. Sales/Retail/was the next most popular category with 23% and the third most popular category was Hospitality/Sports 14%. Other reported fourth highest (13%), followed by Computer (10%), Insurance (5%), Real Estate and Consulting (4% each) and Manufacturing (0%).

The Business distribution also witnessed shifts since the one-year follow up report. Other experienced a 9% increase, rising from 4% to 13%. Real Estate rose 3%, from 1% to 4%, Insurance and Banking/Finance both rose 2% (from 3% to 5% and 24% to 26% respectively), and Computer rose 1%. Manufacturing witnessed no change from 2010 to 2014. Consulting witnessed the greatest decrease, shifting from 13% to 4%, followed by Hospitality/Sports (22% to 14%). Sales/Marketing/Retail shifted from 24% to 23%.

Skidmore graduates were hired by a broad variety of employers ranging from larger prestigious organizations like A&E Television Network, BBDO, BlackRock, Bloomberg LP, Bridgewater Associates, Bristol-Myers Squibb, Burton Snowboards, Calvin Klein, Deloitte & Touche LLP, JPMorgan Chase, Massachusetts General Hospital, New York Police Department, John F. Kennedy Center for Performing Arts, Twitter, United Nations, and University of Hawaii Cancer Center, to smaller, local employers. See Appendix E for a complete list of employers and titles of graduates of the Class of 2009.

GRADUATE STUDY

56% of those responding to the survey are either currently pursuing graduate study or have completed graduate study. This number is a dramatic increase from the 18% pursuing graduate study reported in the year-out follow up data.

The Class of 2009 went on to study at many of the nation's leading institutions including American University, Columbia University, Harvard University, New York University, Tufts University, Syracuse University, and Boston University.

The most popular programs were (in order) Social Work, Education, Business, Fine Arts, and Physical Therapy.

GEOGRAPHIC DISTRIBUTION

Graduates of the Class of 2009 are employed or are completing/have completed graduate study in 32 different states and 15 foreign countries. New York was by far the most popular state with 47%. 18% reported Massachusetts and 7% in California.

The United Kingdom accounted for three alumni residents, with France, Israel, and South Korea accounting for two each. The following countries accounted for one alumni resident working or completing graduate study: Australia, Canada, Ghana, Mongolia, Netherlands, Nigeria, Sierra Leone, Singapore, South Africa, Switzerland, and Thailand.

GENDER DIFFERENCES

There were some significant differences between the responses of females and males to the survey. Men were more likely to be working in Business (36% vs. 19%), Government/Law (10% vs. 6%) and Self-Employment (6% vs. 5%). Women were more likely to be working in Communications (11% vs. 7%), Education (14% vs. 5%), Health/Science (10% vs. 9%), and Human Services/Social Work (6% vs. 3%). The Arts were distributed evenly between men and women, with 6% reported for each group.

Women were more likely to attend to graduate school, with 61% either currently attending or have attended versus the 48% reported by men.
