Methodology

A knowledge rate of 72% was achieved for the Class of 2011, Five Years Later (464 records, N = 641). In comparison, in 2012, 76% was collected in the First Destinations report. Both knowledge rates fell well within the guidelines of the National Association of Colleges and Employers First Destinations Task Force recommendation of a 65% - 85% knowledge rate.

Methodology:

Two sources were used to collect outcomes information from the Class of May 2011, Five Years later:

- **LinkedIn:** Internet searches were conducted using the professional networking platform, LinkedIn, as approved by the National Association of Colleges and Employers.
- **Advance Database:** For those who did not have an active LinkedIn profile, information was researched using the Skidmore database, Advance, extrapolating information from the Biographical Record updated by the Division of Advancement.

As a result, 90% of the data was collected via LinkedIn, and 10% was collected through the Advance database.

Employment: Industry Breakdown

Industry classification codes are those used by the US Department of Labor. A different coding mechanism was used in the First Destinations Report published in May 2012, which does not make it possible to create a direct observational comparison of alumni between fields. The highlights below are based on best-faith efforts to create as direct a comparison as the data allow.

Increases:

- Arts, Audio/Video Technology and Communications captured the largest group of the Class of 2011, with 22% reporting employment in this field. This is an increase of 1% from the First Destinations report published in May 2012, which found 21% to be working in this field.
- **Human Services increased by 2%**, from 4% to 6%, likely as a result of graduates receiving terminal degrees after Skidmore to practice social work.
- **STEM/Health Science increased by 6%**, from 9% to 15%, over the past five years.

Decreases:

- Business Management and Administration, and Finance witnessed decreases in reported employment, falling from 30% in May 2012 to 18% in March 2016.
- Education and Training was represented by 13% of respondents, down 5% from 18% reported in May 2012.

Employment: Timeline for Transition

According to a Fortune.com article from January 2016, the median job tenure of workers ages 20 to 24 is less than 16 months.

Since graduating from Skidmore College in May 2011:

- 7% (25) have held 1 post-graduate position.
- 12% (40/43) have held 2 or 3 post-graduate positions.
- 15% (52) have held 4 post-graduate positions.
- 9% (32) have held 5 post-graduate positions.
- 44% (154) have held 6 or more post-graduate positions.

In a November 2015 report by ADP, while employees in the same positions as the year before got a 3.5% wage increase, job switchers' pay increased 6.5%. In many cases, a new position may be the fastest route to escaping salary stagnation.

Additionally, millennials in the workplace are more likely to freelance opportunities than any other generation, with 27% of freelancers aged between 25 – 34, more than double any other age demographic. This can be noted especially in Skidmore's findings in the "Arts, Audio/Video Technology and Communications" career cluster. Of the Class of 2011, **6% reported freelancing or self-employment.**

Employment: Entrepreneurism

In 2015, Forbes magazine ranked Skidmore College as the 7th “Most Entrepreneurial” college. In March 2016, 6% (30) of the Class of 2011 reported self-employment or freelancing; 70% (21) identified as female, and 30% (9) identified as male.

The most common majors reporting self-employment were: Studio Art (23%, or 7 respondents), Theater (20%, or 6 respondents), and Government (13%, or 4 respondents).

Below is a chart highlighting all of those who reported self-employment:

Continuing Education: Overview

Authors of a September 2015 Council of Graduate Schools report found that **total graduate enrollment remained below the peak set in 2009, and increased by just 0.4% since 2013.**

In June 2012, 19% of the Class of 2011 indicated continuing education immediately after graduation, with a 76% total response rate. **Five years later, with a 72% knowledge rate, 39% indicated continuing education in their time since Skidmore, up 20 percentage points.** In comparison, St. Lawrence University reported 21% and Colorado College reported 26% of the class earning a graduate degree within 5 years.

The most popular institutions selected by Class of 2011 graduates include (in descending order): New York University, Columbia University, University of Pennsylvania, Boston University, and Fordham University.

Nationally, the largest field by total enrollment was **education, with 19% reporting enrollment in this discipline,** however, the largest field of enrollment for Skidmore was in STEM fields, at 14%, followed by Health Science with 13%.

The Council also found that **enrollment grew in STEM and Health Sciences, reflected by strong enrollments of Class of 2011 graduates, with 14% and 13%, respectively in these fields.**

The Council observed first-time enrollment decreases in five fields, including the Arts and Humanities, which were down 4%. Social and Behavioral Sciences were down by 3.1%. This does not align with Skidmore's findings, which observed 6% continuing education in the Arts, and 8% in Human Services.

Skidmore had strong showings in Law and Business, with 10% and 5% reporting enrollment respectively.

Across the country, 73.1% of students were enrolled in a master's degree or graduate certificate program. In the Class of 2011, 78% of those continuing education indicated enrollment in a master's degree or graduate certificate program, and 22% indicated enrollment in a professional or Ph.D. program (18 Ph.D., 18 JD, 2 MD, and 1 DVM).
