Methodology

A knowledge rate of 70% was achieved for the Class of 2020 (403 respondents), surpassing the suggested 65% guideline of the National Association of Colleges and Employers First Destinations Task Force, implemented in 2012.

Methodology:

Three sources were used to collect outcomes information from the Class of May 2020:

- **Email Outreach:** Mass email outreach was administered beginning in August 2020, and again in December 2020.
- **Text Outreach:** In January 2021, we conducted a round of text message outreach, with the assistance of the Division of Advancement.
- **LinkedIn:** For those who did not respond to email or phone outreach, internet searches were conducted using the professional networking platform, LinkedIn, as approved by the National Association of Colleges and Employers.

Limitations in Data Collection for 2020:

Due to the COVID-19 global pandemic, we were unable to utilize several traditional methods for gathering information:

- At the annual Grad Finale in April, the Career Development Center collects updated email addresses and phone numbers, ensuring that future outreach is able to reach the class members. This event was cancelled once the campus migrated to remote operations in March 2020.
- Phone calls were not placed with the assistance of student workers, due to remote operations and technological limitations.

First Destinations Status

69% of the Class of 2020 reported employment (Working Full-Time, Part-Time, and Volunteering), while 16% are continuing their education.

While those seeking employment were reported at higher rates than previous classes (up 4% from Class 2019), the Class of 2020 entered a market when the US Department of Labor was reporting unemployment rates of over 20% for 20 to 24 year olds.

Status	Percentage	Respondents
Employed	69%	276
Working Full-Time	52%	210
Working Part-Time	12%	47
Interning Full-Time	2%	8
Volunteering	3%	11
Continuing Education	16%	65
Unemployed and Seeking Employment	14%	57
Unemployed and Not Seeking Employment	1%	3
Preferred Not to Answer	Less than 1%	2

I was hired in June 2020 by Vertical Access, an architectural consultancy firm and rope access company. I now perform inspection and testing work at difficult-to-access structures around the country, including dams, cathedrals, and skyscrapers. The job involves rappelling, photography, data compilation, and a great deal of research. It is an unexpectedly good fit for a humanities double major/media minor who spent most of my free time in college fixated on rock climbing.

-Tuli Kuckes

COVID-19 Impact

In September, a survey published by the Collegiate Employment Research Institute at Michigan State University found that 25% of employers had either closed an open position, or rescinded offers due to COVID-19. **15% of the Class of 2020 had offers rescinded. Below are reported employers:**

Arts & Development Lab, Brooklyn College
Avid4Adventure
Ayco
Bread & Puppet Theatre Co.
Dorchester Boys and Girls Club
Eugene O'Neill Theater Center
Fidelity Investments
Fisher Investments
Fund for the Public Interest
Imagination Stage
Liberty University
NRG
Outward Bound

Overland Summers
Pareto Law
Peace Corps
Scholastic Publishing
Scribe America
SITE
Steifel Investments
Success Academy Charter School
The Sarah Gideon Campaign
Urban Adamah Fellowship
Walt Disney Company
YMCA Camp Mason

59% of the class reported changing their post-graduate plans in response to the COVID-19 pandemic. However, when compared with the Class of 2019, who entered a more welcoming and thriving job market, **the Class of 2020 is performing comparatively well.** With 70% knowledge rates on both cohorts, the Class of 2020 employment rate is 69%, **only 2% lower than Class 2020, and 4% lower in reported Full Time employment. This speaks to the adaptability, resilience, and flexibility in the members of this class.**

Below are excerpts from respondents demonstrating the challenges and positive aspects this class has experienced:

- *"I was scheduled to accept a job in either Boston or NYC...I am now working remotely from my parents' house in a non-ideal job position."*
- *"Obviously I had to reimagine my career path. I was going to study puppetry and now I am teaching middle school drama at a private school."*
- *"I was planning on attending NYU Nursing school but did not feel comfortable moving during the pandemic. I ended up taking research job at Albany Medical College and am very happy!"*
- *"I had to defer my graduate school plans. I was going to attend Carnegie Mellon University to obtain my Masters of Music Composition, but I am now teaching middle school math both online and in person."*
- *"Originally I had planned to work at a sleep away camp for the summer before moving to Maryland for a 9 month apprenticeship, but both jobs were canceled. Now I have been working 2 part time jobs this summer in order to total 40 hours a week. I also got hired for a different apprenticeship and will be moving to NYC to work with Juilliard's professional apprenticeship program in November."*
- *"I was going to take a gap year and travel but cannot so I have taken a position with AmeriCorps for a year."*
- *"My goal was to obtain a graduate student assistantship while earning my Master's Degree, but due to COVID, the GSA position at my school of choice was cut for financial reasons. So instead, I decided to take a gap year and apply to more schools for Fall 2021 and just work a full-time job in the meantime; I was blessed to get a full-time job in the middle of the summer post-graduation in the midst of COVID."*

Working in the psychology research field was something I did not expect to pursue post-grad, but this research opportunity was one of a kind for me. I am working with the Puerto Rican community and finding out how the environment affects the mental health of Puerto Rican children. I am extremely grateful for this opportunity considering the difficult times we are in living in.

-Jamin Garcia

I was hired in December, 2020 as the Professional Research Assistant for the Atmospheric Composition & Chemical Processes subgroup of the Chemical Sciences Laboratory at the National Oceanic and Atmospheric Administration. I am working on a spectrometer that will take flight in Korea in 2021 to investigate the composition of ozone in the stratosphere.

-Angelina Leonardi

I bought a 2008 Ford E350 van which I outfitted with my partner to make it our full time home. I work various jobs across the country and move with the seasons. So far I've been a vegetable harvester in Rhode Island, a snowboard instructor in Vermont, and a raft guide in New York. After this season I'll head out west to explore the great beyond!

\$90,000 – 99,999	1	1%
\$100,000 or more	4	3%

The median salary for the Class of 2020 was \$30,000 – 39,999.

As a graduating senior leaving college and starting a new job, I was honestly terrified. The pandemic only added fuel to the fire. I struggled with the thoughts of not having a job after graduation, if I tested positive for Covid-19, my family's safety, the future of my friends, etc.

In the spring of 2020, I received a call that I was accepted to work as an ophthalmologist scribe/technician. I was ecstatic since it was ranked at the top of my list. Despite my excitement this caused another obstacle to surface. How would I move during the pandemic? Could I do it? Would I like my new home? The thought of moving from Ohio to NYC was intimidating, especially right out of college. With the states under strict quarantine, I was very apprehensive about successfully finding a new place to stay. I distinctively remember packing all of my belongings and thinking that I would be asked to return home once I arrived. Thankfully, everything turned out perfectly. I found an amazing apartment and started a job that I had no prior experience in.

Working in a private patient care facility with gifted surgeons has definitely been the highlight of 2020. The best part has been working in an environment where I feel supported by my coworkers and supervisors. It has been a dream living in the city and I am eager to see where I will be five years from now. The future is always uncertain and as many people know from this past year, that unpredictable events can alter someone's plans in a very short period of time.

This is a message to the juniors and seniors still attending Skidmore. It is very important for you to apply to a job in a field that you are passionate about. Working 40+ hours a week can feel either like a burden or a wonderful learning experience. Many questions and worries will come to mind, however, it is important to stay optimistic and trust that you will make it. I promise that you will be alright.

Faculty	1%
Non-Skidmore Affiliated Resources	45%
Database Not Affiliated with Skidmore	29%
Networking Through Other Professional Contacts	16%
Other	34%

I started many new endeavors this year! I started teaching middle school drama at The Rivers School, I started my own space for emerging artists to work together virtually at First Kiss Theatre Company, and I started learning to cook. I'm teaching theatre, tutoring non native English speakers after school, and coaching softball.
