In Their Own Words:

How did an Asian Studies Major impact your career path?

Skidmore teaches excellent writing skills! This is a skill set that has served me immeasurably. The critical thinking skills, leadership, and independent problem-solving abilities they fostered at Skidmore have contributed substantially to my success.

Skidmore also strongly advocates for studying abroad. This opportunity should not be missed! I would not be the person I am today without having lived in China.

Elizabeth Burns, 2001
