In Their Own Words:

What I have experienced, done, and seen since leaving Skidmore has taught me a whole lot. I always thought that as vital as what I learned in the classroom at Skidmore was, I learned a great deal more outside of the classroom. Since leaving Skidmore, my entire life has been a learning experience outside of the classroom, and I have tried to embrace every moment of it.

Oren Kroll-Zeldin, 2003

The good news: "I can turn what I love, Judaism, into something that I do every day. Instead of making Judaism only one component of a complicated life, I can incorporate it into everything that I do."

Wish I had known: "I wish I had taken more modern philosophy classes at Skidmore, as I learned later that many early ideas of Reform Judaism are based on the ideas and influences of these thinkers. I also wish I had been more active in Jewish student life and in bringing liberal Judaism to campus."

Lisa Kingston, 2005
