Graduate and Professional School Expo

Oct. 4, 2017
Case Student Center
11:00 AM-1:00 PM

Presented by the Career Development Center
Questions to Ask Any Graduate Program

1. What kind of student thrives in your program?
2. What would be the advantages and disadvantages to going to grad school immediately after completing an undergraduate degree? The advantages and disadvantages of waiting a few years? The best use of the interim time?
3. Can you tell me about your placement rates and types of jobs obtained by recent graduates? (Avoid relying on testimonials and anecdotal evidence).
4. How can I be a strong candidate for a program like this?
5. What is the largest and the most typical class size for a graduate class? Are classes restricted to graduate students? To majors?
6. What are the criteria and process for selecting TAs, RAs, and Fellows?
7. Will I get to develop my own topics, or will I be expected to work on a professor’s ongoing research?
8. What facilities are available for graduate students? Are there any restrictions on access?
9. What is the mean time to complete (a) classwork, (b) research, (c) thesis or dissertation? That is, what is the mean time to complete the master’s or Ph.D.? Ask about the program as a whole, but perhaps more importantly, by professor.
10. What is your attrition rate? Of those who don’t finish, what are their reasons?
11. How reliable is your financial support year to year? Is the first-year offer always sustained, given attainment of academic goals?
12. What are the age range, gender balance, ratio of married/single, and geographical origins of graduate students in the program?
13. Can you tell me who is launching new projects? Which professors have won awards and grants lately? (These presumably need graduate assistants).
14. May I meet some currently enrolled students? (In person, or later via phone or email; be sure to ask about their research topics and be sure to take notes on specific professors mentioned).

Seeking Word-of-Mouth Advice

1. How did you get into this field?
2. What education or credentials are required for continued advancement in this field?
3. What was different than what you expected? Any myths you want to shatter for me?
4. What advice would you have for a young person interested in this field?
5. Should I go to grad school right away or work for a year or two first? If work, what kind of experiences would be best?
6. Which grad schools do you think are best in this field? Why?
7. Do you know any professors that I should contact?

| 1     | **Albany College of Pharmacy and Health Sciences**  
Albany, NY | ACPHS offers a Doctor of Pharmacy (Pharm.D.) program as well as 5 MS degree programs including: Clinical Laboratory Sciences; Cytotechnology/Molecular Cytology; Health Outcomes & Informatics; Molecular Biosciences; Pharmaceutical Sciences. They all provide excellent preparation for those students who wish to seek employment in the health-care field after graduation or continue on for a PhD or explore other professional medical school opportunities.  
For more information, please visit:  
[http://www.acphs.edu](http://www.acphs.edu) |
| 2     | **Albany Law School**  
Albany, NY | Albany Law School is a small, private school located in the heart of New York State’s capital that has educated leaders since 1851. As the oldest law school in New York and affiliated with University at Albany, the institution offers students an innovative, rigorous curriculum taught by a committed faculty. It was named #1 in the country for preparing students for government law and #6 nationally for prosecution and public defense by “preLaw” magazine (winter 2016). Students have access to New York’s highest court, federal courts, the executive branch and the state legislature. With approximately 10,400 practicing alumni, Albany Law’s graduates serve as a vital community and resource for the school and its students.  
For more information, please visit:

| 11 | **Boston University Graduate School of Arts & Sciences**  
**Boston, MA**  
*Master’s, Doctoral*  
*Multiple Disciplines*  
Business, Computer and Information Sciences, Mathematics, Natural Sciences, Psychology | Graduate education at Boston University draws on the strength of our faculty, research programs, and facilities, as well as the historical and cultural advantages of our Boston location. Frequently updating our graduate curricula and constructing new research facilities in the sciences further enhance our educational and research capabilities. We have a long tradition of excellence in the humanities, with interdisciplinary programs such as American & New England Studies and a joint program in Bioinformatics in addition to departmental programs in the more traditional disciplines.  
For more information, please visit: [http://bu.edu](http://bu.edu) |
| 12 | **Boston University School of Public Health**  
**Boston, MA**  
*Master’s, Doctoral*  
*Health* | At SPH, our departments, curriculum, degree and certificate programs—all reach generously and creatively across borders, boundaries, and disciplines in the quest for solutions. Our Master of Public Health (MPH) degree gives you an integrated, problem-based foundation in the values, history, methods, and functions of public health with specializations in our 17 interdisciplinary certificates. Our research-focused MS degrees and PhD degrees produce graduates that are known for their comprehensive knowledge and excellent methodological skills—skills that will enable you to translate research findings into practical applications. If you are an experienced public health professional seeking to build your leadership and management skills, our DrPH degree program prepares you to practice at the highest level. And if you’re hoping to learn more about a specific area before getting involved in a degree program, we offer stand-alone graduate certificates in public health, clinical trials, and statistical genetics. <td>41</td>
<td>The University of Vermont</td>
<td>Burlington, VT</td>
<td>Master’s, Doctoral</td>
<td>Multiple Disciplines: Business, Computer and Information Sciences, Education, Environmental, Health, Humanities, Natural Sciences, Psychology, Social Work</td>
<td>The Graduate College at the University of Vermont was formally established in 1952, though the first graduate degree had been awarded in 1807. Today, UVM offers over 50 academic programs leading to a master’s degree and over 20 programs leading to the doctorate. All graduate degrees are awarded by the Graduate College with the exception of the M.D. degree, which is awarded by the College of Medicine. The Graduate College includes programs and degrees in the natural, physical and biological sciences, the social sciences, the humanities, and professional training. One of the notable features of a UVM graduate education is that many of our programs are interdisciplinary, cutting across several departments and areas of study. These interdisciplinary programs capitalize on the exceptional strengths of UVM faculty, especially in the biological and biomedical sciences as well as in environmental and ecological programs. For more information, please visit: <a href="http://www.uvm.edu/graduate">http://www.uvm.edu/graduate</a></td>

| 50 | **New York College of Podiatric Medicine**  
   New York, NY  
   *Doctoral*  
   *health* | Founded in 1911, the New York College of Podiatric Medicine (NYCPM) was the nation’s first medical college devoted to educating and training doctors of podiatric medicine. By combining outstanding classroom instruction with clinical training in one of the world’s largest foot care clinics, students follow in the footsteps of dedicated health care professionals who have set the standard for excellence in podiatric medicine.

NYCPM has graduated more than 25% of all active podiatrists in the nation. The school is located in New York City, home to many of the most prestigious health care institutions in the world. NYCPM has established affiliations with many of these, including Metropolitan Hospital, Lincoln Medical Center – a level one trauma center – and Mount Sinai Hospital.

For more information, please visit: [www.nycpm.edu](http://www.nycpm.edu) |
