1. Presentation of NACCC results
 - a. From <https://race.usc.edu/colleges/naccc/>: “The National Assessment of Collegiate Campus Climates (NACCC) is a trio of quantitative surveys on campus racial climate administered annually at colleges and universities across the United States.”
 - b. Skidmore has already administered NACCC surveys for students and staff, and a faculty survey will be administered next year. Amy Tweedy, Joshua Woodfork, and Joseph Stankovich shared findings from the NACCC student survey. We discussed some initial reactions to the data and began to brainstorm ways that these results can inform CEPP’s activities for next academic year. We also discussed who else in the college this data should be shared with and the need for specific action to address some of the concerns this dataset raises. CEPP members will continue to discuss this at our next meeting as we make plans for AY 2022-23.

Meeting ended at 5:14pm
