

Procedures for removing meals from the Dining Hall

The college provides students with an option to remove meals from the Dining Hall if they have a current meal plan. You must meet with a Skidmore Dining Services staff member to select this option.

Procedure:

1. Meet with a Skidmore Dining Services staff member, preferably 24 hours prior to beginning this option. However, students may also request this option when they arrive at the cashier to use their meal swipe.
2. Have students sign this form to acknowledge that they understand the policy.
3. Students will be given a 9x9 container and, if needed, a separate container for soup or cereal. A cup will also be provided if the student doesn't have a reusable mug.
4. Students using this option must take their food to go and may not eat in the Dining Hall.
5. Containers can be picked up from an attendant in the Atrium Cafe.
6. If picking up food for a sick student, you must present the sick student's Skidmore ID at the Dining Hall.

I understand these rules and agree to abide by them when taking food to go from the Dining Hall.
