

FACULTY MEETING

FEBRUARY 13, 2004

(POSTPONED FROM 02/06/2004 CANCELED MEETING)

ANNOUNCEMENTS

Last summer with the help of discretionary funds from the President's Office, a group of Skidmore faculty and staff -- from Women's Studies, Health Services, the Counseling Center, Residential Life, and Athletics -- worked together to address the issue of eating disorders on the Skidmore campus. The group held a workshop, developed the parameters for a SW course entitled "Hunger Pains" being taught by Peg Tacardon, formed an advisory committee to serve the community, and planned an awareness program. We now have a Skidmore brochure available, which we plan to hand out at today's faculty meeting and distribute to administrative offices.

Thanks for your attention to this matter, and we hope you will keep us in mind as a resource.

Sincerely,

Exercise Science, Dance and Athletics

Social Work

Women's Studies

Counseling Center

Health Services

Residential Life

KEYNES'S GENIUS TO BE FOCUS OF ROTHEIM'S MOSELEY LECTURE

Professor of Economics Roy J. Rotheim will deliver the College's Edwin M. Moseley Faculty Reach Lecture at 8 p.m. Wednesday, Feb. 25.

Titled "J.M. Keynes and the Struggle for Genius," the lecture will be in Gannett Auditorium of Palamontain Hall. Admission is open to the public without charge and a reception will follow the talk.
