MOTION

The Curriculum Committee moves to eliminate the Management and Business-Political Science interdepartmental major.

Rationale: The Management and Business and Political Science Departments petitioned the Curriculum Committee to terminate the MB-PL interdepartmental major. Both departments believe that students interested in the two departments would be better advised to double major. Neither department believes that the interdepartmental major is equivalent to majoring in either (or both) subjects; indeed, the interdepartmental major exceeds minoring in each department by only one course each. There has also not been a great amount of student interest in the MB-PL major - only nine students graduated with the interdepartmental major since 2007. The five students currently enrolled in the interdepartmental major will be allowed to graduate before its elimination. No resources are specifically allocated to the interdepartmental majors.
