

## Summer 2026 Campus Projects

Facilities Services will be hard at work across campus completing a wide range of projects that began in April and in several cases, some will wrap up before the start of the Fall semester as other will continue in to the winter months. These efforts span across academic buildings, residential halls, and exterior campus spaces—improving infrastructure, enhancing accessibility, and supporting the College’s long-term maintenance and planning goals. A full list of completed projects, can be viewed below. In addition to these efforts, several projects remain in progress or are currently in the planning phase, with more scheduled over the next several months as we continue to invest in the stewardship and improvement of our campus environment

- Jonsson Tower 1st floor renovations “Residential Community Commons”
- Jonsson tower penthouse - Installation of a new accessible chair lift
- Jonsson Tower geothermal work- upgrades/repairs to well field- potential parking lot closures
- Phase II front entrance project
- Dining Hall HVAC replacement Phase I
- Closure of pool for the Summer for install of new filtration system
- Replacement of 150 exterior light poles
- Palamountain - replacement of the HVAC/control panels/alarm system
- Art Building – Electrical panel replacement
- Annual concrete/asphalt repairs including re-stripping of roadways and parking lots
- Water Tank Inspection- Schedule TBD, anticipate some interruptions in service
- TLC bathroom rehab
- Annual classroom painting, refresh and upgrades
- Wiecking Elevator replacement
- Zankel repairs
- Northwoods 6 and 8 appliance and furniture placement

\*\* Listed above are some of the major projects Facilities will be undertaking this FY26 summer, please note, this list is not all inclusive, and there are many minor projects also in progress.
