This Month's Recap: A Prodigious Start

This semester, Honors Forum is striving for more community involvement and event participation than ever- and that's exactly what we saw at our Welcome Back Picnic on September 10th in Case Center, just a day after classes began! With over 60 Honors Forum members attending, it looks like we're going to have a fantastic year! Keep coming!

Back in Full Force:

Thanks for a great year, Professor Greenspan! After a year of sabbatical, Professor Golden is back in our ranks, and she's enthusiastic to get to know all of you! Email her with any questions: cgolden@skidmore.edu

Featured HF Class of the Month: Obsolescence

This one-credit course combines computer science, physics, and business to understand the diverse impacts of technological advancements in the 21st century.
