Here's how it works

You choose a Primary Care Physician

You must choose a Primary Care Physician (PCP) from our network for you and each covered member of your family. Your current doctor is probably on our list of thousands of participating physicians. To try a doctor search now, go to **mvphealthcare.com** and click on the *Provider Search* link at the top of the page, or call **1-888-MVP-MBRS (1-888-687-6277)**.

Your Primary Care Physician and your health care

Your PCP plays a central role in your health care. For regular check-ups (routine well or preventive care) and basic health screening services, you should consult your Primary Care Physician. These services may not be covered under your contract unless your PCP performs them.

If you need to see a specialist

MVP's network includes physicians from nearly every medical specialty. If you require specialty care, you must use a participating specialist for coverage.
