All percentages are calculated using the number of students remaining from the entering class cohort.
The '# returning fourth year' excludes students who graduated in 3 years as they are counted under 'graduate in 3 years.'
Retention includes students on approved leaves of absence and affiliated programs.

*Initial cohort size adjusted for allowable exclusions at the time 6-year graduation rates are calculated.
Allowable exclusions include: deceased, permanently disabled, armed forces, foreign aid service of the federal government, or official church missions.

Census date is around October 5. Previous classes entering prior to Fall 2011 used a census date of first class day (Sept 5).
Incoming class and % returning each fall now calculated on Oct 5 of each year.
Differences between rates for those entering before Fall 2001 and those entering Fall 2001 or after should be slight.

Source: NYSED-2.9 Graduation Rate Report for cohorts 1985 through 1991 and the IPEDS-GRS Report for 1992 cohort onward. The 12-month reporting period for the years up to and including 1991 is July 1 to June 30. From 1992 onward, the 12-month reporting period is Sept 1 to Aug 31. You will therefore notice a greater percentage of students graduating in 4 years and a decrease in the percentage graduating in 5 years for the most recent years (below solid black line). August graduates (those finishing over the summer of their intended year of graduation) are now included in the 4 year column. This change does not affect the overall 6-year graduation rate and is entirely the result of modifications in definitions at the state and federal levels.
