

Dear Students,

This is a reminder that you have yet to fulfill your Quantitative Reasoning 1 requirement. You may meet this requirement by taking the QR exam up to a maximum of 4 times during your first year or by enrolling in MA100. After your first year, if you have not passed the examination, you will be required to take MA100 to fulfill the QR1 requirement. Successful completion of QR1 is a prerequisite for enrollment in any QR2 course.

During the spring term 2018, the QR1 exam will be given on the following dates:

Sunday, January 21	2:15-3:45p.m.	Harder 201
Friday, February 2	2:30-6:30 p.m.	Harder 202
Friday, March 2	2:30-6:30 p.m.	Harder 202
Friday, April 6	2:30-6:30 p.m.	Harder 202
Friday, April 27	2:30-6:30 p.m.	Harder 202

Please arrive **between 2:30pm and 5:15pm** to give yourself adequate time to complete the exam (except for the January 21st exam. You must arrive at 2:15pm to take this one). Make sure to bring your student ID card to the exam, a number 2 pencil and your calculator if you plan to use a calculator on the second part of the exam.

If you wish to take any of these exams, you must register for it with me, administrative assistant in the Mathematics Department, any day before the day of the exam. You may register in person by coming to Harder 204A (Math office) or by telephone (x5280) or by e-mail (knewsom@skidmore.edu).

To prepare for the exam, you may pick up from me a copy of a practice QR1 exam with answers. In addition, you can find a practice QR exam online at <http://www.skidmore.edu/qr>. There will be review sessions covering the material to be tested on the following dates:

Sunday, January 21	1:15-2:15p.m.	Harder 201
Thursday, February 2	6:00-7:00 p.m.	Harder 202
Thursday, March 2	6:00-7:00 p.m.	Harder 202
Thursday, March 30	6:00-7:00 p.m.	Harder 202
Thursday, April 27	6:00-7:00 p.m.	Harder 202

If you cannot make any of these sessions and wish to take the exam or have any questions, please stop in to see me in Harder 204A, or call me (ext. 5280). I will be happy to speak with you.

Sincerely,

Kim Newsom
Academic Administrative Assistant
