

SEE Beyond Award Information for International Affairs (IA) Students

The SEE Beyond Award provides funding for a variety of projects and activities that IA students may engage in over the summer. The award may be used to support research, internships, courses, workshops, and other experiences that complement our students' major or minor. The nature of this work is not strictly defined and students have flexibility in deciding what experiences would best enrich, broaden or deepen their education at Skidmore. We encourage students to be creative and have an open mind when formulating their ideas for this award.

Samples of IA projects that may qualify for the SEE Beyond Award are described on the IA website at http://www.skidmore.edu/international_affairs/students/index.php. Students may also find examples of internships and study abroad programs that could be used for this award at http://www.skidmore.edu/international_affairs/abroad/index.php. Again, these listings are just examples and are not meant to be exhaustive.

Students who decide to apply need to consult the SEE Beyond Website and contact the IA Program Director (for listing of Director and IA faculty please see: http://www.skidmore.edu/international_affairs/faculty/index.php).

It is a competitive award so the best application wins. Complete applications must be submitted to the IA Director by the deadline posted on the SEE-Beyond page at: <http://www.skidmore.edu/see-beyond/dates.php>.
