Roommate Finder

Test4 Res4 (999999904)

IMPORTANT: If you have not done so already please fill out the "Roommate Finder Application". If you have not completed this you will not be visible to other students looking for roommates, limiting your chances of a successful match!

The Roommate Finder has been developed to assist you with finding a roommate for the 2020-2021 Room Selection process.

This page contains a number of options that you can use to search for potential roommates. Please review the categories below and fill in your responses for what characteristics you are looking for in a roommate. You can use as many or as few of the fields that you choose, though you must use at least one.

TIP: We would recommend filling in only the categories that are most important to you. This system will only return results if all criteria match. Simply put, the more options you select, the more difficult it will be to find a match. If your first search fails attempt removing criteria that is less important to you to increase your chances of finding a match.

Once you fill in the criteria you want to search for, click "Search" to proceed.

Tip: Better descriptions of each criteria can be found by hovering over the label (i.e. Athlete) with your cursor.
